In another column will be seen a notice to the subscribers to the new Presbyterian Church. It is highly important that those who so liberally subscribed should now be equally prompt in coming forward to pay up their subscription. The building is progressing very rapidly, and money is needed to keep the hands at work, it is preposterous to think that you can keep men at work, who earn their living by toil and labor, without money, and that paid regularly. In a conversation with the Treasurer, he informed us that he had been unavoidably compelled to pay out several hundred dollars over the amount placed in his hands. It is true, it is perfectly good, but we think it is asking too much to ask a gratuitous officer to advance, when you might so easily furnish him with the needful.

It is proposed to put the building under roof ere the winter sets in. To do this the hands must not be permitted to stop work, and to do this it is necessary to pay them up as fast as they earn their wages. This, the Building Committee are anxious to do; but they cannot unless the subscribers are prompt in furnishing them the means.

Every citizen of this town, whether he belongs to that particular persuasion or not, is interested in the completion of this fine building. It will be both an honor and an ornament to our thriving little town.

We had the pleasure, on Monday evening last, of seeing the Panorama of the Holy Land. We did not learn the name of the artist who executed it, but hesitate not in pronouncing it a very fine painting. The scenes were all very life like, and exceedingly well painted. After the panorama was run through, the audience were regaled with some beautiful dissolving views.

The election comes off next Monday, and we hope the people will keep as cool as the hot weather and other exigencies will permit. If you can't keep cool keep as cool as you can.

The Railroad.

By a reference to our advertising columns, it will be seen that the Company has made a call on the stock holders for an installment of 25 per cent. This is necessary at the present time, to pay for engineering and making a commencement on the road.

We still, now and then, hear murmurings against the road, and prophecies of its not being completed. One says that he does not now doubt that the branch road will be completed to where it should tap the main stem; but the main stem will still be a myth, a mere phantom in the brain of scheming men. And these are the arguments that are now used against the road:—It is said that the people of Louisville have never been in good faith with regard to our branch; that they wished only to draw off our minds from a connection with Cincinnati, (when we say our minds, we mean the minds of those who live in this, the central portion of Kentucky, not of this or any other county in particular.) That now that we have secured our branch, when we have built it, they will let the main stem fall through! and say to us, "Gentlemen, if you wish a connection with Louisville, come on and finish your road. We know that you have exhausted your energies, (and we must confess that you have exhibited a great deal more than we expected to find in a one-horse, inland county,) but as you have no means left to build the Cincinnati road, our object has been accomplished and we have no farther use for you. It is also confidently asserted that there yet lacks \$250,000 for the completion of the main stem, to its junction with our road; and this is adduced as a strong argument to prove that the main stem will never be built. It is stated too by some, that Louisville is on the verge of bankruptcy; that her bonds cannot be sold for more than 25 or 30 cents to the dollar; and therefore they could not, if they would assist to build the main stem; and, that the people of that city are sighing and groaning under the enormous burden of their taxation, and verging on a state of revolt.

We shall endeavor to prove, in our feeble way, and in as laconic a manner as possible, the utter fallacy of these ideas. As to the assertion that the main stem will not be built, all we have to say is, that perfect madmen have the management of the work, who are not such close observers as some of our citizens, or else they would not now be boring that big hole through Muldrow's Hill; and doing a great deal of other very laborious work. "The people of L. have never been in good faith, &c." Well it does seem to us that a commercial and enlightened people, like those of L. are acting very strange, to pay one million dollars, merely for the purpose of diverting our attention from any project; does it not to you, reader? Really we are of more importance than we thought, if this be the case.

"Two hundred and fifty thousand dollars are yet lacking to make the road to the junction with our road," says one. If we understand the affair, we opine this is not the case. We know that the City Council did at one time refuse to issue this amount, but finally succumbed to the voice of the people, and issued them. If we be rightly informed, the subscription of Louisville, was ample to build and equip the road to this place, had it entirely been used for that purpose; but as it was contributed to the main stem, a large portion of it has been expended in purchasing iron, grading, and boring through the hill. The iron which they have purchased is now being laid on the road as fast as circumstances will permit, on the Louisville end of the road; and as the amount of iron which they have purchased is, we understand, sufficient to lay down sixty odd miles of track, they have concluded to lay it on our branch, instead of letting it lay idle two or more years. This does not look like letting the road fall through, does it?

"Louisville is on the point of bankruptcy, and her people groaning under taxation," says another. Now, there is not a city which stands higher than Louisville, in the commercial world. Her banks are considered sound, North, South, East and West, their notes are quoted at par every where in the Union; her merchants stand high as men of business, and we venture to assert that there are fewer "failures" among this class, than in any other city in the Union. And as for the people feeling oppressed by taxation, we need only to mention one circumstance to confute this statement. At the time the City Council refused to issue any more bonds, a large majority of the people of each ward, said to them, by memorials, in the most emphatic terms, either to issue the bonds or resign their seats!

We have put forth these few, disjointed ideas, not that we suppose they will do any particular good, but merely to disabuse the minds of some, who, we think, do not look at things in their right light; and to satisfy them thoroughly that every thing is "right side up."

Colloquy.—"I say Harry, is that horse in the buggy?"

"God bless you! no, mas' Dick; but he's hitched to it monsus nice."

CHOLERA.—We don't like to mention this disease. It is decidedly an unpleasant subject; but we, as a public journalist, think it our duty to warn and advise our readers, when we think it will be to their benefit; this is our duty, and we have always endeavored to do it to the best of our ability. We see, by our exchanges, that the cholera is prevalent all over the Union. It is in Kentucky, and it is in our County, and it is in our town in its mild form or premonitory symptoms. Two deaths have occurred in one family which have been pronounced cholera by some and denied to be cholera by others; but cholera or not, they were taken off very quick. Now, the whole cause of these deaths, was imprudence of the grossest kind. They arose from eating a perfect gorge of unripe fruit and equally unhealthy vegetables. Even while we write this article, we see three little misses eating fruit which has been prematurely ripened rather withered by the hot and dry weather. What know they that they may take this fearful disease before the setting of the sun? Parents watch your children, masters and mistresses watch your servants. They both are thoughtless, and may perchance bring the fell destroyer in your midst ere you are aware of it. We have no desire to raise the least alarm, far from it; for that does more harm than good; we wish to give a little wholesome advice; if it be not taken, our duty at least has been done.

MURDER.—On Wednesday, the 19th, at Rum Creek, Logan county, Ohio, a man named McCleary, in cold blood, fired upon and killed Stephen Glick, a young man 18 years of age, who, with his brother, was sitting on a fence resting himself. The murderer fled, but was taken about five miles from where the murder was committed. No cause was assigned for the bloody deed.

Well, ain't it getting mighty fashionable? Attention company; carry arms!

A little daughter of Mr. Wm. Wathen of this place, fell out of a door on Friday evening last, and broke her arm near the wrist, causing a compound fracture. She is about three years of age.

We are informed that Capt. Thos. Hirtz, of Bardstown, Ky., will deliver a Temperance Lecture in the Court House of this place, on this (Wednesday) evening at early candle-light. A general attendance is requested.

"Well (hie)" said an old bloat, the other day, "the corn crap s'goin' (hie) s'goin' ter be (hie) short this year. (hie) I'm monsus sorer (hie) sorer for it. I (hie) hope they won't (hie) waste much of it (hie) in bread, an' s'ch like!" And we left.

Phew! how hot it is! Thermometer getting so high that it almost pushes itself off the nail upon which it hangs; and the "gentle zephyrs" feeling as though wafted from a dozen bake-ovens. The ground has become as "dry" as an old toper on short allowance; and we cry out with that old codger Shakespeare wrote about:—"Hung be the heavens in black!" And we don't care a fig how black it is, so it rains; and we don't care a pewter sixpence, how wet the rain is neither.

GRAPE VINE DISEASE IN FRANCE.—A letter from Rochelle of July 1st, received by the Franklin at New York, says:

Since my letter of June 3d, the bad weather of which you were advertised has continued, and our vines have suffered from it. This circumstance is going still further to diminish the product of our crop, which will not be abundant. The evil is especially manifest in the red grape vines, which this year will yield nothing.

WASHINGTON NEWS.—The correspondent of the *Courier and Enquirer* telegraphs as follows:

WASHINGTON, Thursday Evening. Dispatches from Spain represent the insurrection as serious, but state that the result depends on the combination of Espartero and Navarez with O'Donnell. That will insure the deposition of the Queen, the re-establishment of the regency, and the transfer of Cuba to the United States.

The President is about to veto the bill appropriating \$1,400,000 for the improvement of Cape Fear River, as unconstitutional. This defeats the river and harbor bill.

I also understand that he is preparing to veto the bill for the survey of land in the new Territories because it has a section granting homestead to actual settlers.

The Senate at 9 o'clock this evening adopted Mr. Hunter's bill granting scheme as a substitute for the homestead bill. It grants homesteads at 25 cents per acre. The bill will now pass both houses, and be signed.

The administration is anxious for a termination of the session.

MONEY FOUND.—We learn that Henry Cart, a hard working man while digging in a cellar at the corner of Shelby and Jefferson streets, found a strong box, 4 1/2 feet under ground, which on examination was found to contain silver and gold to the amount of \$1,000. Of this sum \$750 was silver and 250 in gold.—*Louisville Courier*

ARRIVAL OF THE PACIFIC.

New York, July 24, M.

The Pacific arrived with dates four days later from Europe.

The allied fleet has temporarily withdrawn from Constantinople to Baro. No battle.

Prussia sends a special envoy to Austria urging Austria to refrain from further steps with France and England, but rather join Prussia with negotiations for peace. There is strong suspicion of Austria's good faith to the allies.

Arrival of the Arrabie.

New York, July 24.—The Arabia arrived out on the morning of Sunday the 23d. The news is absolutely nothing. District again excited respecting the intentions of Austria. Austria's having at Prussia's instance countermanded the advance of the army into Wallachia. The Russians are not in a hurry to evacuate, on the contrary the Czar's letter to Prussia says, under any circumstance he insists remaining on the line of Sereth for strategic reasons. Considerable mystery hangs over the diplomatic relations of the Powers.

It is expected that a fortnight will elapse before the next phase of negotiations transpires.

There is no actual news excepting an action at Gungoo, on the 3th of July, where the Turks crossed the river in force meeting with the Russians. A battle ensued in which the latter lost 500 in killed and wounded. The Russians still occupy the Danube bank, from the Alata downward.

AFRICA.

New York, July 27, M.

The steamer Africa arrived at half past 9 this morning. She brings Liverpool dates to the 15th.

The news continues important, but with very little change.

It is now confirmed that the Russians have received counter orders, and will not quit Wallachia.

The Austrians have, for the present, entirely relinquished the intention of peacefully occupying the principalities.

No new facts as to the progress of the Prussian and Austrian negotiation.

It is believed that all the smaller German States will adhere to the Austro-Prussian convention.

The feeling in England with respect to their new complications is decidedly uneasy.

There has been severe fighting on the Danube. The Turks under Omar Pacha personally, after severe fighting, have captured the Danube Islands and the city of Gungova, which they now occupy. The details are not yet to hand. It is clear that the Turks have assumed offensive measures, and with the reserve of the Anglo-French army, first division of which are now at Rastuk, they will probably risk a pitched battle.

Gortschakoff with 30,000 is advancing by forced marches to dispossess them of Gungova.

The Black Sea fleet, when last seen, was proceeding from Odessa in the direction of Sebastopol.

SOOTHING AFFAIR IN MT. WASHINGTON.—Yesterday morning the peace and quiet of the village of Mt. Washington, Bullitt county, was somewhat disturbed by a discharge of fire arms. It seems that Sam Smith and Mr. Panatel had been engaged some time ago in a quarrel, and yesterday the latter went to the store of his enemy and demanded satisfaction, which was given in the shape of four pistol fires. Smith's ammunition giving out at his juncture, Panatel displayed a pistol whereupon his antagonist fled as swift as his feet would carry him. The denouncement is to occur before a magistrate's court.—*Lou Con*, July 25th.

STORM AT DAVENPORT, IOWA.—On Thursday afternoon last, the country about Davenport was visited by a violent violent hurricane. Two steamboats had their upper cabins blown off, and the Ben. Campbell had her pipes blown down, by which two persons were killed. A canoe with three persons were capsized, and all in it are supposed to be lost. The new store of B. Wickersham & Son was blown down, and nine persons buried in the ruins. Seven had been taken out alive, but badly bruised, up to Friday morning. The remaining two are supposed to be ladies, who went in the basement to examine stores.

THE PACIFIC RAILROAD.—Public attention has been much excited for a year past to the great Pacific Railroad, through the United States and its Territories. This work if ever accomplished, can never be adopted for the transportation of merchandise. Railroads cannot compete with navigable waters in carrying of bulky articles. Hence the transport action of Cargoes hence to California, via Honduras or Panama, must ever be made at a slight cost compared with that upon a railroad of several thousand miles in length. The Isthmus will it seems to us remain the great thoroughfare between the Pacific and Atlantic; and the railroad must be relied upon as the most rapid means of communication.

TOTAL DEPRIVITY.—The Evansville Journal contains an account of a brute in human form, living in that place, who left his house early on Monday morning, and sporting in the wood with a dog and gun, leaving a wife and child locked up in the house, both of whom were dangerously sick, without food or drink of any description within their reach. The inhuman wretch remained away all day and until nearly twelve o'clock at night. About 10 o'clock in the evening some of the neighbors were alarmed by the groans of the woman, and the crying of the child—heard cries for food, water, &c. &c.—The doors were forced open, and a horrible sight presented itself. The woman was in the last agonies of death, the immediate cause of which was undoubtedly neglect and starvation. She died in about one hour after being discovered. The child was about a year and six months old, was cared by the neighbors and exhibited painful symptoms of disease, hunger, and most wanton and brutal neglect. The wretch of a father returned before the wife died; but could give no excuse for his unpardonable absence, or for leaving his family in such a destitute condition.

KENTUCKY GRAND DIVISION, SONS OF TEMPERANCE.—This body met at Shelbyville on Monday Morning, and adjourned on Thursday evening last, July 19th.—The attendance was respectable—not large. The heat of the weather and the fact that there had been recently some cases of cholera in the place, kept many away. On Thursday there was a procession and an address by Rev. J. Young, of Louisville. In the course of the session, speeches were made by Rev. Mr. Morrison, of Jefferson; Rev. Mason Owens, of Madison, R. H. Bruckly, Esq., and Rev. Mr. Proctor. The division suggested the propriety of a state Convention of the friends of a prohibitory liquor law, but did not name time or place. The question of adopting the degrees recently adopted by the Grand Division of the United States, was left over for consideration at the annual meeting in October, to be held at Richmond Ky.

We are gratified to learn from the Lebanon Post of the 19th inst., that the pet railroad of that county is being brought to a successful issue. The fact that our town citizens are resolved to live outside of the world, and let all creation distance them in securing this best of all methods of transportation, shall not prevent us from giving a hearty huzza when others avail themselves of the privileges which they effect to condemn. Railroads are a great nuisance,—of course they are,—and we don't intend to have any through our section of country, simply because we haven't sense enough to appreciate their advantages. If any body will volunteer to make one for us at his own expense, we may consent to use it occasionally, but we shall do so under protest, of course, and if we find that our passage and freightage are too low, while our personal comfort and numerous other advantages are too great, we can manage to make a dirt road along the line of the railroad, and fall back upon our sleds again, traveling as slow as we choose, and paying as heavy road-side expenses, as the most inveterate old foggy could desire to pay.—*Harrodsburg Ploughboy*.

HORRIBLE AFFAIR.—On Friday morning last, about 10 o'clock, a negro man belonging to Rev. R. H. Caldwell, of Perryville, entered the house of Mr. Bennington, in the vicinity of that place, and committed a rape upon the person of Mrs. B. When first seen afterwards, the victim of this heinous act, was much wearied as with excessive struggling, and presented the appearance of having been choked. We understand that the negro made her promise upon her knees, not to expose him. He was arrested in a short time, and it was with difficulty, as we are informed, that the infuriated people could be kept from hanging him immediately. They had a rope around his neck at one time for that purpose. He is now confined in our county jail, to await his trial at the August term of the Circuit Court.

Mrs. Bennington, we understand, is a highly respectable lady, and the diabolical outrage committed upon her was well calculated to create a great excitement against the guilty fiend.

Ky. Tribune.

A curious and rare occurrence had just taken place at St. Monace. A woman whose age is 84, had been complaining of a pain in her jaw for some time, which she ascribed to tooth-ache; but although strange, it is nevertheless true, the old woman was "teething." During the last week she acquired two new grinders—one on the upper and the other on the lower jaw. She is now well and proud of her additional assistance.—*Pittouween Register*.

HEAVY LAW SUIT.—The Dayton Enquirer says: Henry Doullite, Esq., the great railroad contractor, has commenced suit against "The Sandusky city and Indiana railroad Company," for ninety thousand three hundred and twenty-five dollars, balance due on the road from Tiffin to Sandusky City. This balance has, we learn, been due for two years, bearing ten per cent. interest by his contract.

SUGAR IN SUGAR.—Yesterday there was considerable enquiry for sugar; chiefly for Cincinnati which resulted in sales of about 600 hogsheds, at prices ranging from 3 1/2c for inferior to 4 1/2c for fair in new Orleans, at the last accounts, good sugars were extremely scarce at advance prices, and in New York brown sugars have advanced upwards of one per cent. on all grades lately.—*Louisville Courier*, July 25.

BANK OF KENTUCKY.—We notice late sales at the Philadelphia Stock board, of ten shares stock in Bank of Kentucky.—at \$101.—*Lou Con*.

—Four persons, a mother and three daughters, were killed by lightning, on Thursday of last week, at Tonawanda.

The Revolution in Mexico is making progress. Alvarez is not dead as reported.

The charges of fraudulent alterations in the Minnesota Land bill are not determined.

—Persons cannot be too cautious, during the prevalence of hot weather, in the use of cold drinks. Ice water should not be used unless at about the temperature of spring water; and even then it is dangerous to drink too freely of it when the body is in a heated state. The Pittsburgh papers record the death of several persons in that city, from the excessive drinking of cold water.

—A fiend in human shape, named McNally, attempted to commit a most brutal outrage upon the person of a little daughter of Robert Hogan, of Hardin county, on Friday last. Mr. H., upon hearing of the affair, went in pursuit of the scoundrel, and after administering to him a sound thrashing, ordered him to leave the country, which he immediately proceeded to do.

—Mr. Lewis Murphy of Oldham county, was seriously, if not fatally injured one day last week by falling into a well. He had been at work in the well, but finding the air very oppressive, he directed to be drawn out. He had reached the top, when he was suddenly overcome and fell back.

—Mr. Kyle, the defrauder of the Harlem Railroad company, is still in the Eldridge street prison, New York, unable to obtain the \$100,000 security demanded for his appearance.

Remoted DUEL.—The New York Herald publishes a letter from Liverpool, to the effect that it is not unlikely a duel will come off in England between John Van Buren and Mr. Sickles, the secretary of the American Legation in London, in consequence of a speech made sometime since in this country by Mr. Van Buren, reflecting upon the character of Sickles. We doubt its truth.

The Catholic Orphan Asylum, near Allegheny city, was destroyed by fire on Tuesday morning last. The building was four stories in height, and well finished, and contained at the time of the accident over fifty orphans, who fortunately escaped without injury. Much of the furniture was also saved by the great exertions of the inmates. The Asylum cost upwards of \$7,000, and was insured for \$3,000. The orphans were taken to Pittsburgh and placed in an orphan Asylum on Webster street.

LEXINGTON CITY HALL DESTROYED BY FIRE.—A small frame shed in the yard attached to the City Hall in Lexington was discovered to be on fire, on Tuesday morning, and before the fire companies reached the spot, the main building was partly in flames. The fire spread with great rapidity, until nothing was left of the large building but the walls. The lower story was used as a City Hall, and the upper by the Odd Fellows, as a Lodge room, and the Lexington Library Association. The City Records were all saved, but the Odd Fellows lost all their jewels, regalia papers, &c. The Library sustained but little damage. The Odd Fellows lose it is supposed, about \$1,000. The fire is thought to have been unquestionably the work of an incendiary.

DRY GOODS.

THE Undersigned having entered into a partnership in the Mercantile Business, in the town of Lebanon, would respectfully inform their friends and the public generally, that they have just received and opened a large and well selected stock of

DRY GOODS:

Direct from the Atlantic Cities. Their stock consists in Ladies' Dress Goods of the latest and most modern styles, Gentlemen's Wear, such as Cloths, Cassimeres, Vestings, &c., Boots, Shoes, &c., &c.

The Senior Partner will keep constantly on hand, a full assortment of Ready made Clothing; which he will cut and have made in, and especially for that market. Having been engaged in that business all his life, and being well known in this country, it is unnecessary to say anything further on this part of the business.

We invite our friends and acquaintances to call and examine our stock and prices before purchasing elsewhere, as we intend selling our goods as low as they can be bought in the West. Our stock is very extensive, and we cannot fail to suit our customers.

Our stand is now at the old stand of J. R. Knott, but as soon as our new store is finished, we may be found in the stand formerly occupied by Messrs. Abel, Wimsatt, & Co., next door to Messrs. L. A. Spalding & Co.

DR. GEOHEGAN'S

EXTRACT OF

HYDROPIPER,

For Dyspepsia, Scrofula, and all impurities of the blood.

Prepared by one of the Faculty.

THIS vegetable remedy which is now spreading to all parts of the country, is prepared by a graduate of one of the first Medical Schools in the West; a physician of high standing in his profession, and as much opposed to empiricism or quackery as any one can be, as is shown by the fact that the recipe is published, and each company each bottle of the medicine; thus exterminating it from the charge of being a nostrum.

It is prescribed by Physicians,

as will be seen by reference to the Circular and by the accompanying certificate.

Unlike Sarsaparilla the Hydropiper is quick in its action, it first bottle often producing wonderful results, as in the case of the negro girl of Mrs. Simmon's, of Louisville, who was relieved of

Blindness in One Week!!

In short, it has excited the wonder and admiration of all who have used it, and wherever known stands at the head of all remedies for the following diseases:

Dyspepsia, Scrofula, White Swelling, Mesenteric Diseases or Negro Consumption, Scrofuly, Chronic Rheumatism, Gout, Neuralgia, Stomach Ulcers, and all Cutaneous or Skin Diseases, all female irregularities and obstructions, Mercurial Discharges, Secondary Syphilis, General Debility, and all disorders arising from impure blood and bad Habit of System.

For Female Complaints

This remedy stands unrivalled. Its effects are wonderful. It is a slight stimulant and a powerful tonic and alterative.

As a beautifying of the complexion, in the cure of pimples and blotches, in producing a clear and beautiful skin, it is a much more safe and sure remedy than all the cosmetics and lotions in existence. Try it and you will never regret it. Do not lose confidence if it should seem at first to increase the disease—the general effect of the medicine being to drive all impurities to the surface and by that means out of the system.

HARDENBURG, Ky., Oct. 6, 1851.

Dr. A. E. Geohegan—Dear Sir: I have examined your recipe for Compound Fluid Extract of Hydropiper, for the cure of Scrofula in all its forms, and other chronic affections, viz Rheumatism, Female Weakness, &c. Having prescribed, and watched its effect in many cases of the above diseases, and having always found it effectual, I most cheerfully recommend it to the afflicted as the best alterative and tonic I have ever used; altogether superior to Sarsaparilla, and any of its compounds.

Price, \$1 per bottle, or 6 bottles for \$5, when taken at one time.

WM. CONNER, Sec'y.

The attention of property holders is respectfully called to the superior advantages for FIRE, MARINE and INLAND INSURANCE, offered by the

PROTECTION INSURANCE CO.

The undersigned has been furnished with blank policies, signed by the officers of the Company; also with blank renewal receipts, for continuing policies already issued, and is duly authorized and prepared, as agent of said Company, to make insurance for any period of time, not less than one month nor greater than seven years, upon buildings or their contents, occupied as Dwellings, Stores, Warehouses, Churches, Hotels, Banks, Court Houses, Colleges, &c., &c., and their contents against

LOSS OR DAMAGE BY FIRE.

Also, on Dry Goods, Groceries, Manufactured Goods, Produce, Household Furniture, Live Stock, and every other description of Merchandise and Personal Property, shipped or to be shipped per good Steamboat or boats, to and from points on the Western Waters, or between Eastern Cities (via Lakes or other inland routes) and any town in the Western country, against the hazards of

Inland Transportation.

Also, on Shipments of Goods, Wares and Merchandise, per good vessel or vessels between New Orleans and Eastern ports—between New Orleans and other Gulf ports—between all American ports and English or European ports, or to any other maritime port whatsoever in the Atlantic waters, against the

Perils of the Seas.

At Rates of Premium as Low as any Responsible Institution.

The attention of Merchants is especially requested to the superior advantages and convenience of insurance at home, under an "Open Policy," covering shipments by specific endorsements, or under a "Contract Policy," covering all shipments whatever during any agreed period—at current rates of premium charged by other companies—for account of applicant, or whom it may concern. Losses promptly adjusted under the supervision of the undersigned local Agent, and payable in bank funds, on the spot, or if desired, at New York, Boston, Philadelphia, Baltimore, Charleston, New Orleans, St. Louis, Louisville, Pittsburgh, or any other agreed point in the United States.

For further information respecting rates of premium, etc., apply to the undersigned.

REMEDIES.

Scissoring.

A tailor in New York advertises for a number of thin coat makers. At the rate of wages paid there, we should suppose nearly all the coat-makers would be thin ones.

Boy—Say, Lanky, are you employed by the gas company? Thin Man—What do you mean, you dirty little wretch? Boy—Cos you looks as if you vos training to go down a gas pipe.

Small Newsboy—Are you the one that insulted me, say! Big ditto—Yes—sir—what of it? Small ditto—Nothing, only I thought it was some little fellow.

If you want to feel about right, get into a pond of strawberries and cream, and swim around about a couple of weeks.—A great invention is cream and strawberries.

We never knew a man who observed politeness to ladies who was not happy, contented, cleverish and all that. Hence, if you wish to be on the right side of yourself and other folks, in the easiest way, just do the polite.

Some men are called sagacious merely on account of their avarice, where as a child can clutch its first moment it is born.

The cholera is easily obtained: Four green apples, two cucumbers, a quart of cherries, with plenty of bad rum, will insure the institution at short notice. Gentlemen at all skeptical should try on a few patterns.

With four metallic qualifications, a man may be pretty sure of success. They are gold in his pockets, silver in his tongue, brass in his face, and iron in his heart.

A person who resided for some time on the coast of Africa, was asked if he thought it possible to civilize the natives. "As a proof of the possibility of it," said he, "I have known some negroes that thought as little of a lie or oath as a European."

A sweet comparison.—A young lady returning late from the concert, as it was raining, ordered the coachman to drive close to the sidewalk, but still was unable to step across the gutter. "I can lift you over it," said coachy. "Oh, no, I am too heavy," said she. "Lord marm he replied, I am used to lifting barrels of sugar."

We heard a good retort in the cars the other day, from a tipsy Scotch laborer, who had carried in his hand a bottle of "fire water," with which he kept himself warm and moist. A fellow-traveler, wishing to poke a little fun at him, asked him what he had got in his bottle. "Small beer," was the reply. "Well," said the other, "if it's small beer, I'll share it with you." "Nae," answered Sawney, "it's too small fra twa."

The laugh was against the man in good clothes who returned to his seat. I have often heard of men who could hold but one idea in their heads at a time. It is not so with my uncle Joshua. As he sat down to dinner, the other day he asked a blessing in these words—"For what we are going to receive may the Lord make us as duly thankful!" and added in the same breath—"Sally that steak is burnt to a crisp."

It was on the morning of the 22d, at Buena Vista, that Santa Anna's morning compliments soon came in of form a thirty inch shell, which passed a few yards over our heads and buried itself in the earth behind us. "Holy mother!" exclaimed old Mike S—, "if the devil isn't shootin his dinner pots at us, sure!"

A mechanic up town has just got out a new saddle, on which to ride hobbies.—Politicians should order a bushel or two.

Young man, if you propose and fail, don't take the melancholies—liquor and hemp—but to some other "de lane." All creation isn't centered in the garments of Miss Brown. Persevere and you will succeed. On the whole, make up your mind that Miss Brown is a fool; and that you have had a lucky escape.

The Ohio liquor law passed by the Legislature of that State at its late session, has been declared to be unconstitutional by the courts of that State, and all prosecutions under it consequently fail.

New Mortar for Buildings.—It is said that a French gentleman has discovered a manner of making a mortar perfectly resistant of air, water, and even the salt water of the ocean. This mortar, mixed, is in every respect comparable to cut stone. It is homogeneous, and impermeable, and consequently inattaackable by air and water. It may be employed in all parts of the building, and is alone sufficient for constructions of every kind, with an economy of 30 per cent. as compared with common mortar. It is perfect for facing walls and defending them from the action of moisture, either of houses or submarine constructions.

The Height of Mockery.—A barrel organ opposite your window, playing, "Let us be happy together."

THE BRITISH PERIODICALS.

AND THE FARMER'S GUIDE. LEONARD SCOTT & CO., No. 54 Gold street, New York. CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the "FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE," by HENRY STEPHENS, F. R. S., of Edinburgh, author of the "Book of the Farm," &c., &c.; assisted by JOHN P. NOBLES, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c. This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of plowing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short the pictorial feature of the book is unique, and will render it of incalculable value to the student of Agriculture. This work is being published in Semi-monthly Numbers, of 64 pages each, exclusive of the Steel engravings, and is sold at 25 cents each, or \$5 for the entire work in numbers, of which there will be at least twenty-two. The British Periodicals Re-published are as follows, viz: The London Quarterly Review (Conservative), The Edinburgh Review (Whig), The North British Review (Free Church), The Westminster Review (Liberal), and Blackwood's Edinburgh Magazine (Tory). Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, AFTER IT HAS BEEN ISSUED BY MESSRS. SCOTT & CO., so that subscribers to the reprint of that Magazine may always rely on having the EARLIEST reading of these fascinating tales.

TERMS.

For any one of the four Reviews \$3 00 or any two do 5 00 or any three do 6 00 For all four of the Reviews 8 00 For Blackwood's Magazine 3 00 For Blackwood and three Reviews 9 00 For Blackwood and four Reviews 10 00 For Farmer's Guide (complete in 22 Nos. \$5 00 (Payment to be made in all cases in advance.) CLUBBING A discount of twenty-five per cent. from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. CABINET MAKING.

THE SUBSCRIBER would respectfully announce to the citizens of Lebanon and Marion county that he still continues to manufacture on the most reasonable terms and in the most workmanlike manner, all articles usually kept in establishments of the kind; such as: Fine, Marble-top, and common Bureaus, Fine and common Bedsteads, all sizes, Spring Mattresses, Tables, large and small, &c., &c. All of which he will sell on as reasonable terms as they can be bought for in any town in Kentucky. Thankful for past favors, I would solicit, and hope to deserve by punctuality to business, a continuance of the patronage hitherto extended to me. A. S. HARDY. May 12, 1852, if

1852 ELEVENTH YEAR OF THE

LOUISVILLE WEEKLY COURIER.

Acknowledged by general consent to be the Largest, Best and Cheapest Newspaper in the West.

In issuing the Eleventh Prospectus of the LOUISVILLE WEEKLY COURIER, we have great pleasure in announcing that Mr. Wm. D. Gallagher, Esq., has purchased an interest in the establishment, and he will hereafter be associated with us in its management. Mr. Gallagher is widely known as an able political and literary writer and a gentleman of cultivated taste, and being thoroughly Western in his education, habits and associations, and conversant with our Railroad and Manufacturing interests, we flatter ourselves that he will add largely to the value and interest of the Courier, and render it still more acceptable to its thousands of readers in every section of the great Mississippi Valley. The Louisville Weekly Courier, Edited and Published by W. D. GALLAGHER & W. N. HALDEMAN, Is one of the largest, handsomest and best papers in the Union, and for the quantity and quality of matter it contains and the great care taken in its preparation, it is beyond all question The Cheapest Paper in the West! As a NEWSPAPER, its character is well established. Our readers of many years will bear witness that for enterprise, energy and reliability, it has borne the palm from all its contemporaries in Kentucky. It is almost invariably ahead in the publication of important news. It procures news of interest from all quarters, both by telegraph and private express, up to the very moment of publication, and entirely regardless of expense. As a Commercial Paper, the Courier stands without a rival in Louisville. The gentleman who has had charge of the Commercial Department for the last six years, and whose entire time is devoted to it, has no superior, and his reports may always be regarded as accurate and reliable. As a Literary Paper, we intend that it shall hereafter occupy much higher ground than heretofore. The Tales and Novellettes we publish will alone be worth ten times the price of the paper. The Miscellaneous and Agricultural Departments will meet with all necessary attention. They will be both full and useful. In Politics, the Courier will continue firmly Whig; but while advocating Whig measures and Whig principles, we do not intend to do so to the exclusion of our usual variety. Our readers may rest assured that they will not be surprised with policies through our columns. Early in January we will commence the publication of the Original Stories: The Martyr of the Heart, by Miss MATTIE GREFFITH; The Little Cripple and his Foster Mother, by ALICE STANLEY, A lady of Kentucky, whose literary productions have been greatly admired. By adopting the Cash System, and strictly adhering to it, we are enabled to still further reduce the price of our paper, and will hereafter furnish it, large as it is, at the following Unprecedentedly low Rates. One copy of the Weekly Courier, one year - - - - - \$1 50 Five copies - - - - - do - - - 5 00 Eleven copies do - - - - - do - - - 10 00 Twenty-two copies - - - - - do - - - 20 00 Postoffice Stamps will be received in payment of subscriptions. No paper is sent from this office without being paid for in advance; and every subscription is discontinued at the expiration of the time paid for, unless previously renewed. Post masters and others are authorized to act as agents in obtaining subscribers in Clubs or otherwise, and remitting funds. All orders should be addressed post paid to

Another Scientific Wonder. GREAT CURE FOR

DYSPEPSIA! DR. J. S. HOUGHTON'S PEP-SIN,

OR TRUE DIGESTIVE FLUID,

GASTRIC JUICE!

Prepared from Rennet, or the Fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiologist and Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa. "I DIGEST!" Such is the true meaning of the word PEP-SIN. It is the chief element, or great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a true Digestive Fluid, precise like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. This is Nature's own Remedy for an unhealthy Stomach. No art of man can equal its curative powers. It contains no Alcohol, Bitters, Acids, or Nauseous Drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of Drugged Imitations. Pepsin is not a Drug. Half a teaspoonful of Pepsin infused in water, will digest or dissolve five pounds of Roast Beef in about two hours, out of the stomach. Scientific Evidence. The Scientific Evidence upon which this Remedy is based is in the highest degree curious and remarkable. Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of scientific evidence, from Liebig's Animal Chemistry; Dr. Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper of New York University; Prof. Dunglison's Physiology; Prof. Silliman of Yale College; Dr. Carpenter's Physiology; &c., together with reports of cures from all parts of the United States. Pepsin in Fluid and Powder. DR. HOUGHTON'S PEP-SIN is prepared in powder and in Fluid Form—and in prescription vials for the use of Physicians. The powder will be sent by mail free of P stage, for one dollar sent to Dr. Houghton, Philadelphia. "OBSERVE THIS!"—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia Pa. Copy-right and Trade mark secured. Sold by all Druggists and dealers in Medicine. Price ONE DOLLAR per bottle. AGENTS. L. H. NOBLE, Lebanon. J. L. SMOLEY, Harrodsburg. D. D. WOODS, Bardonia.

HARPER'S NEW MONTHLY MAGAZINE.

This Magazine has already reached a regular monthly issue of more than 100,000 copies; and is still steadily and rapidly increasing. The Publishers have endeavored, by a well-directed use of the abundant resources at their command, to render it the most attractive and most useful Magazine for popular reading in the world; and the extent to which their efforts have been successful is indicated by the fact, that it has attained a greater circulation than any similar periodical ever issued. Special efforts will be made to render it still more interesting and valuable during the present year. In addition to the usual ample and choice selections of Foreign and Domestic Literature, an increased amount of Original Matter, by the ablest American Writers, will be hereafter furnished. The number of Pictorial embellishments will be increased; still greater variety will be given to its literary contents; its Editorial and Miscellaneous departments will be still further enlarged and strengthened; and no labor or expense will be spared to render it in every way, and in all respects, still more worthy of the extraordinary favor with which it has been received. Harper's New Monthly Magazine owes its success to the fact, that it presents more reading matter, of a better quality, in a more elegant style, and at a cheaper rate, than any other publication. Subscribers in any part of the United States may now receive the Magazine by mail for three cents a number, or thirty-six cents a year postage, either of the Publishers, Booksellers, or Periodical Agents. Each number of the Magazine will contain 144 octavo pages, in double columns (each year thus comprising nearly two thousand pages of the choicest Miscellaneous Literature of the day. Every Number will contain numerous Pictorial Illustrations, accurate Plates of the Fashions, a copious Chronicle of Current Events, and impartial Notices of the important Books of the month. The volumes commence with the numbers for June and December; but Subscriptions may commence with any number. TERMS.—The Magazine may be obtained of Booksellers, Periodical Agents, or from the Publishers at three dollars a year or twenty-five cents a number. Numbers from the commencement can be supplied at any time. Address "Harper's Magazine, New York," post paid.

COLUMBIAN AND GREATWEST PROGRAMME FOR 1851.

The continuation of our excellent series of Western Romances and Tales. Mr. Bennett's Forrest Rose will be followed by a domestic story of Western life, founded on facts, entitled ELLA WINSTON.

Or, the Adventures of an Orphan Girl, By WALTER WHITMORE, Esq. Author of "Ainslie," the "Maid of the Inn," "Love and Retribution," and other popular tales.

Mr. Whitmore is an accomplished scholar, as well as a polished and energetic writer, and his "Ella Winston" is pronounced by good judges, to be equal if not superior to the best Western Novel ever written.

Ella Winston will be succeeded by GERALD LINCOLN; by Miss A. S. St. Clair, author of "Senora Inez," etc.

It is enough for us to say that this production is worthy of Miss St. Clair's reputation. To be finished in four numbers.

We take pleasure in informing our readers that, at a very large expense, we have succeeded in effecting an engagement with MRS. E. D. N. SOUTHWORTH.

We are further much gratified in being able to announce that we are promised another historical novel by

EMERSON BENNETT, ESQ. the incidents to be connected with the Revolutionary war. This will be ready the ensuing spring.

Each of the tales we have mentioned will be completed in a few weeks, and will not only be free from all that could offend a pure and cultivated taste, but will convey instructive and useful lessons.

L. A. HINE, ESQ. will immediately resume his valuable articles upon

THE RESOURCES OF THE WEST. And we are assured by MR. GALLAGHER, that the pretensions of several prominent WRITERS OF THE WEST will soon be considered.
